

# No-Touch Thermometer

---

## Features and Benefits

---

### No-Touch Thermometer

Monitor the health of store employees from a safe distance to ensure a healthy environment for both store personnel and customers. No-contact thermometers are safe, accurate, and easy to use. They are designed for simple, one-button operation to quickly and accurately take temperatures and store data for up to 25 readings (optional alarm available for if a fever is detected).

- ◆ Features 'Forehead' and 'Surface' modes;
- ◆ Operating Range 50 to 104°F/10 to 40°C
- ◆ Certification: WEEE, CE, RoHS, FDA (pending)
- ◆ Battery powered: (2) 1.5V AAA IEC LR03 alkaline batteries, not included
