- Heavy-duty panel fastener with 2-piece design is incredibly versatile
- Use to connect back-to-back corrugated units, add wire legs to corrugated displays, or attach corrugated shelving to displays
- Can also be used to mount graphics to wire grids, or to connect thick boards
- Fastens .375" to 1" thickness
- Heads measure 1" and 1 1/4"

CORRUGATED

Back View: A

**Back View: B**

A: Fasten male end to female end.

B: Press the two firmly together.

REMOVAL

NOTE:
Display can be taken apart. A slot head screwdriver can be used to pry the fasteners apart and the then can be pulled apart by hand.
