

①

Using the keys provided with each shelf, insert and turn both keys clockwise to unlock and open the drawer slowly.

②

Proceed to stock the shelf with product. Load from the back for product rotation.

③

Turn both keys counterclockwise to the lock position. Close the drawer to the shelf, pushing evenly at both ends. Ensure that the lock on each side is completely engaged. Remove and store keys safely.

NOTE: Push evenly at both ends.

④

To dispense product, press down on the door and remove the can.
