

# Metallamine™ Display Pans

Metallamine™ Display Pan

Stainless Steel Display Pan

## Features and Benefits

- ◆ Lighter than stainless steel; easier to handle with product
- ◆ Design and material are NSF compliant and made for direct food contact
- ◆ Integrated rubber feet
- ◆ No sharp edges
- ◆ Pans nest together for convenient storage
- ◆ For use in cold cases only do not use in a hot case
- ◆ Lower cost than stainless steel
- ◆ Easy to clean; hand washing is recommended

## Looks like stainless steel

Innovative, cutting-edge design gives this line of display pans the appearance of stainless steel with the lightness and durability of melamine. They provide an effective and affordable solution for cold deli and prepared food cases when stainless steel is not the desired option. The integrated rubber feet keep pans secure in the case while the sleek design allows pans to nest together for easy and convenient storage.
