

Stainless Steel Color-Coded Ladles

Help to prevent cross-contamination with Stainless Steel Color-Coded Ladles

Features and Benefits

- ◆ Color-coding helps prevent cross-contamination and makes it easier to identify ladle capacity
- ◆ Vinyl-coated handle provides a cool grip
- ◆ Hooked end to hang for drying and storage, and to prevent ladles from sliding into containers during use
- ◆ Heat-resistant to 392°F (200°C)
- ◆ Dishwasher safe; stainless steel with vinyl handle

Color-coding makes it easier to identify ladle

Stainless Steel Color-Coded Ladles can help prevent cross-contamination and make it easier to identify ladle capacity. The eight ladles range in capacity from ½ to 12 oz and are heat-resistant up to 392°F (200°C), making them easy to clean and dishwasher-safe.

The vinyl coated handles provide a cool grip, and the unique hooked end offers a convenient way to hang for drying and storage and prevents ladles from sliding into containers during use.

Specifications

Item No.	Capacity	Finish	Pack
9922913592	1 oz	Yellow	1
9922913594	3 oz	Ivory	1
9922913596	6 oz	Black	1
9922913597	8 oz	Blue	1
9922913598	12 oz	Gray	1

Additional sizes and styles can be made to order (minimum quantities apply.)
